The Schindler 3100, Schindler 3300, Schindler 5400, Schindler 5500, Schindler 6300 and Schindler 6500 will all disappear

Modernization Products

The old MOD names will be replaced by the Schindler 1000 Plus, Schindler 3000 Plus and Schindler 5000 Plus

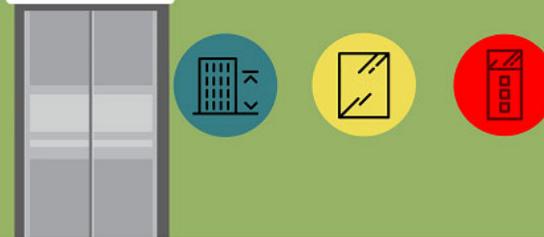

But in Thailand, the Schindler 3000 will stretch all the way to 125 meters

These are known internally as ES1, ES2, ES3, ES5.0 and ES5

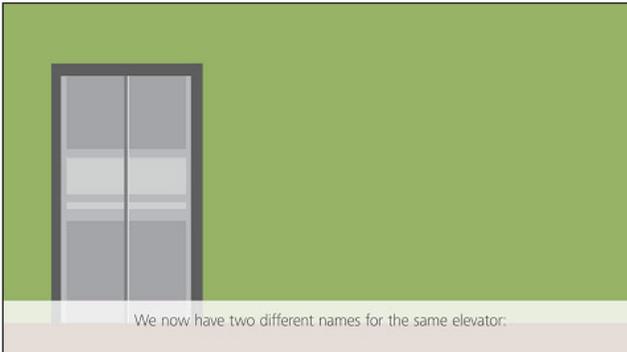

Schindler 3000

Now specific characteristics for example travel height, deco or fixtures, will drive the product definition in the market

The new configurator defines the correct product Schindler 1000, Schindler 3000, and Schindler 5000

We now have two different names for the same elevator:

better position our products in the local market

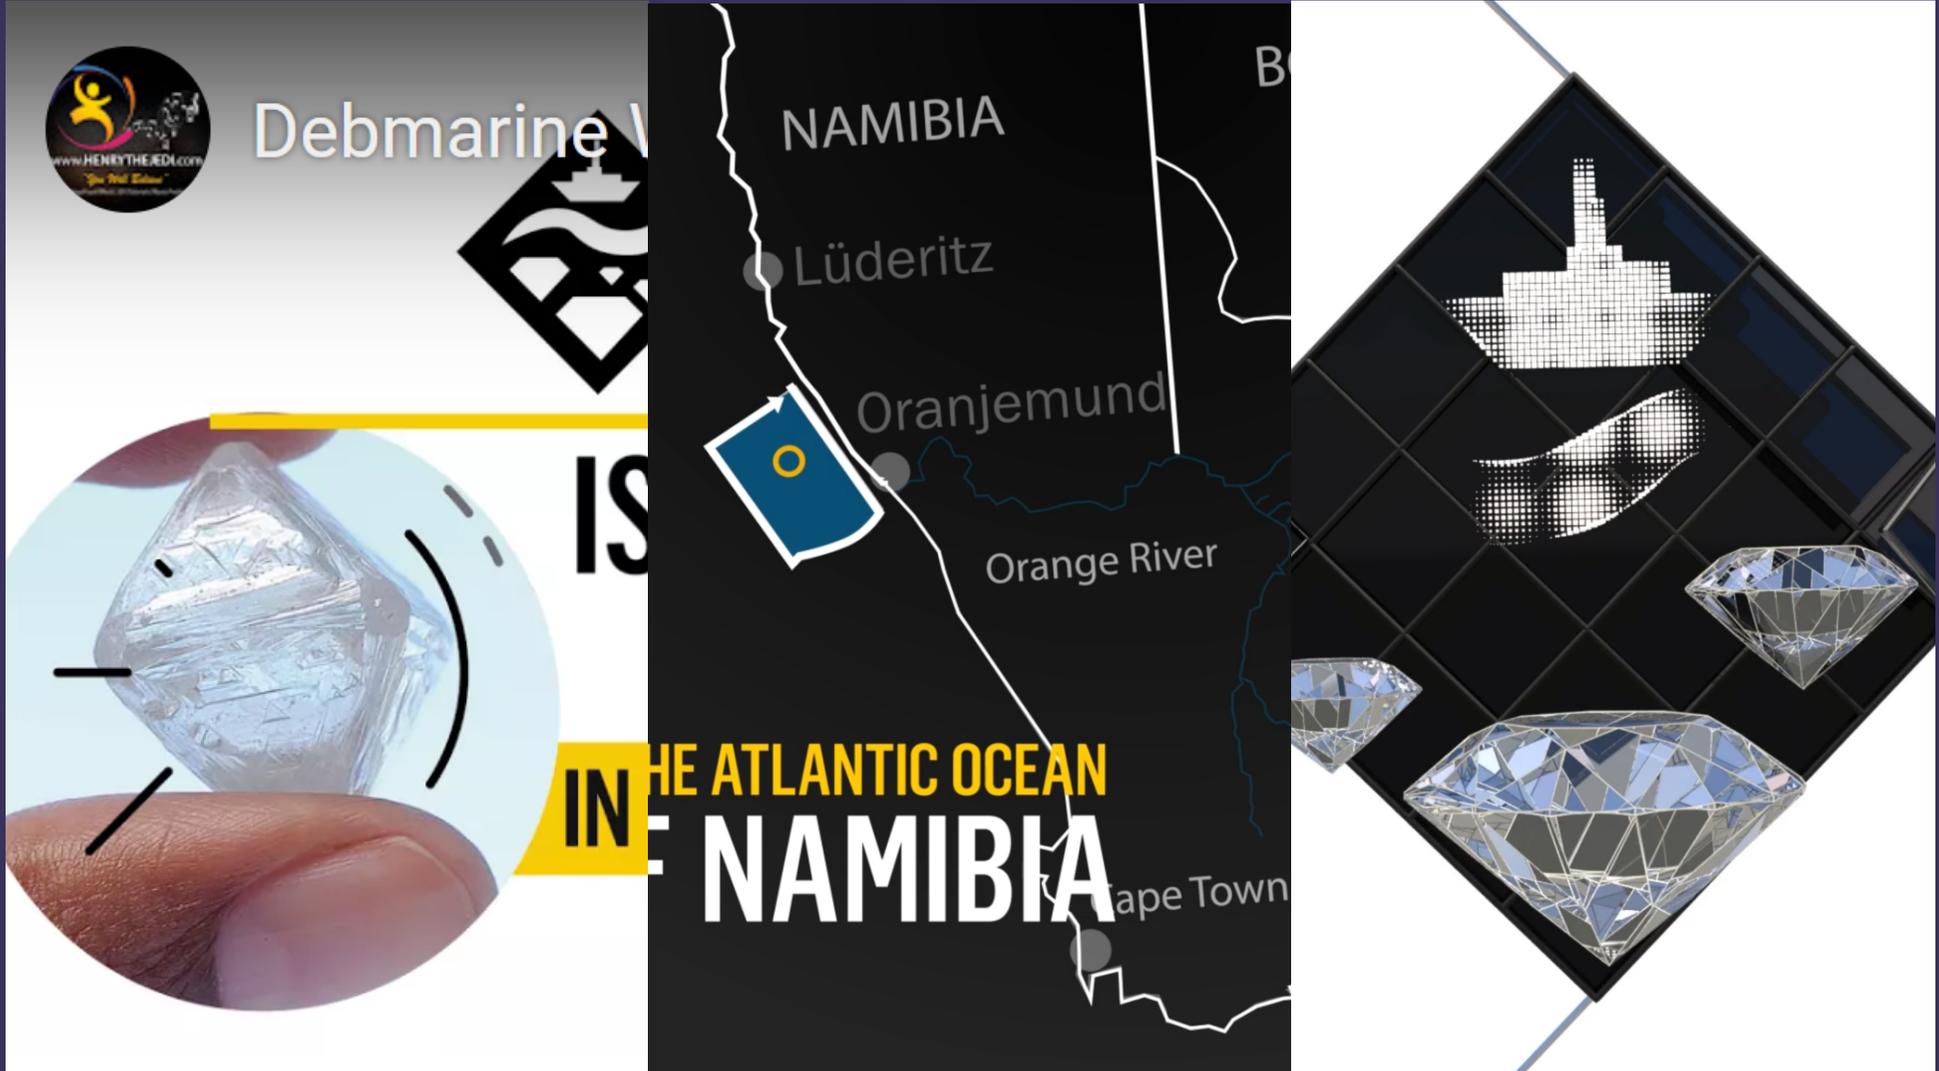

Most importantly, we must use the market names when we talk to a customer
